Okay, I created an on premises account for Anne.

Now I am making sure her cloud account is also accessible.

Okay, Anne now has a cloud account. So, she is able to access Microsoft 365.

I am now making sure she has access to the finance shared folder.
Comment by Javier Baylon [22/Oct/26]
Okay, she should have access to the shared folder. I am verifying by logging onto a company desktop. One moment please.
Comment by Javier Baylon [22/Oct/26]
Okay, Anne is successfully able to access the finance shared folder access which was only allowed by being the finance department group membership. And since this user was created, she also has access to a workstation at the company. She is ready and able to work.

Created Anne Hathaway AD account. Added user to CloudSync OU. Added user to Finance_Users. Added user to Finance_Share_RW. Forced Entra Connect delta sync. Verified user synced to Entra ID.
