Comment by Javier Baylon [03/Nov/26]

Good morning Anne!

This is Javier at help desk.

I will get started on offboarding Saoirse.

I will keep you updated along my progress.

Comment by Javier Baylon [03/Nov/26]

Okay, the user should be disabled locally at the office.

Working on verifying everything is inaccessible to Saoirse.

Comment by Javier Baylon [03/Nov/26]

The user is disabled and group membership removed. But she is still apart of domain users, which still has access to the public folder share.
Comment by Javier Baylon [03/Nov/26]
Since the disabled user can’t authenticate, the user cannot access the public folder share. Meaning there is no security risk and we can proceed.
Comment by Javier Baylon [03/Nov/26]
Okay, I am now verifying that her online account is inaccessible.
Comment by Javier Baylon [03/Nov/26]
Okay, looks like her is disabled online as well. She is offboarded and should not have access to company resources. If you don’t have anything else technically related to Saoirse, then I will conclude this service request.
Comment by Javier Baylon [03/Nov/26]
Service Request complete. You may continue your side of the offboarding workflow. Have a nice day!
